

# Continuing Medical Education Event Cardiology Conference

Saturday, June 1st, 2024

It is our pleasure to extend an invitation to our upcoming Spring CME.

Together, let's elevate our practice, advance patient care, and pave the way for a healthier cardiovascular and vascular future. Don't miss this chance to expand your knowledge, connect with peers, and stay updated on this ever-evolving landscape.

## Registration:

## Vascular Screening

A hidden challenge for diagnosis in women

**Fadi Elias**  
BHSC, MD, FRCS(C), RPVI

Assistant Professor, Vascular Surgery, McMaster University

### Key Objectives

9 am

- Understand the diagnostic and treatment inequalities for abdominal aortic aneurysms and peripheral arterial disease in women.
- Recognize the screening criteria for women and men for abdominal aortic aneurysms and peripheral arterial disease
- Understand the diagnosis and treatment options of chronic venous insufficiency

Accreditation pending

## Coronary Artery Disease in Women

Diagnostic Considerations

**Arvi Grover**  
MD, FACC, FRCPC

Cardiologist, Director of the Heart health program, KMH Cardiology Centres

### Key Objectives

10 am

- Understanding the differences in cardiac presentations between men and women
- Role of microvascular disease and understanding the discrepancies between symptoms and test results
- Understanding management strategies for women and heart disease including treatment of microvascular angina.

Accreditation pending

## Management of Hypertension in women across the age spectrum: Tricks of the trade

Managing the hard to treat patient

**Dr. Ross Feldman**  
MD, C.M, FAHA, FCAHS, MACP, FRCPC

Professor (Emeritus) of Medicine, Western University. Hypertension specialist and Clinical Pharmacologist.

### Key Objectives

11:15 am

- Getting the overall view of your patient's blood pressure in the initial assessment
- Simplified approaches to step care in anti-hypertensive drug prescription
- When to initiate a workup for secondary causes of hypertension.

Accreditation pending
